

# MICHAEL FORREST

*THE CATCH* by Michael Forrest is a new enamelled artwork for the New Partners collaborative commission between Island 2000 Trust and A.J Wells & Sons Vitreous Enamellers. The public artwork is situated at Venture Quays, East Cowes, Isle of Wight. Island 2000 Trust are keen to foster further partnerships with Island businesses that support artists and result in exciting new artworks.

This piece was produced in enamelled steel at the A.J Wells studios based in Newport on the Isle of Wight. A combination of spraying, screen printing and hand painting was used to create the artwork. The medium of vitreous enamel allows the artwork to be displayed permanently outside as it has an exceptional resistance to the elements.

*MICHAEL FORREST is an Island based artist working in both vitreous enamel and vinyl based paints.*
